

What is claimed is:

1. An intumescent arrangement, comprising:
an insulation foam having a surface; and
an intumescent substance disposed on said surface of said insulation
foam.

2. A method of protecting a construction material, comprising:
(a) disposing an intumescent substance upon a surface of an insulation
foam.

3. An intumescent arrangement, comprising:
a door having a surface; and
an intumescent substance disposed on said surface of said door.

4. A method of protecting a construction material, comprising:
(a) disposing an intumescent substance upon a surface of a door.

5. An intumescent arrangement, comprising:
an insulation foam which includes polyurethane foam, said insulation
foam having a surface; and
an intumescent substance disposed on said surface of said insulation
foam.
